HeartCare Partners provides a comprehensive range of cardiology testing, services and procedures across all Cardiac sub-specialties.

**CONSULTATIONS**
- Sub-speciality management in cardiac imaging, invasive cardiology and electrophysiology cardiology

**NON-INVASIVE TESTING**
- ECG & Exercise Stress Testing
- Echocardiography - **bulk bill available for non-urgent echo at dedicated times**
- Transoesophageal Echocardiography
- Stress Echocardiography including Dobutamine
- Ambulatory Blood Pressure Monitoring
- Holter & Event Monitoring

**SAME DAY/NEXT DAY APPOINTMENTS FOR URGENT CASES**

**24/7 REFERRER HOTLINE FOR ADVICE AND ADMISSIONS**
1300 781 800

**INVASIVE & STRUCTURAL HEART PROCEDURES**
- Angiography and Coronary Interventions including Acute Primary Angioplasty

**ELECTROPHYSIOLOGY**
- Electrophysiology Studies and Radio frequency Ablations of SVT, Extensive experience of AF ablation, Specialist interest in ablation of VT
  - Electrical Cardioversion
- Permanent Pacemaker Insertions, Implantable Defibrillators & Loop Recorders
  - Cardiac Resynchronisation Therapy – implantation and optimisation
  - Device Checks

**ACCESS TO PRIVATE AND PUBLIC HOSPITALS**

Mater Private Hospital
Suite 5.11, Level 5, Mater Private Clinic
550 Stanley Street
South Brisbane QLD 4101
Ph: (07) 3360 7100  Fax: (07) 3217 2550

Dr Camuglia grew up in Brisbane, Queensland and now lives in Brisbane with his wife and two children. He has extensive experience in structural heart disease interventions including percutaneous management of aortic valve disease. He trained in cardiology at The Prince Charles Hospital, Brisbane, and subsequently underwent post-graduate internal medicine training at The Alfred Hospital, Melbourne and then advanced cardiology training at the Royal Brisbane and Women’s Hospital. Dr Camuglia completed a fellowship in interventional cardiology at London Health Sciences Centre, University of Western Ontario, Canada. He performs coronary procedures predominately by the radial artery approach and is experienced in acute and elective coronary interventions. He also has experience in structural heart disease interventions including percutaneous management of aortic valve disease.

Dr Hall has been involved and continues to be involved in research related to cardiac imaging and heart failure. Dr Hall consults at Mater Private Hospital, Brisbane, The Wesley Hospital while also visiting Hervey Bay regularly.

Dr Hall has been involved and continues to be involved in research related to cardiac imaging and heart failure. Dr Hall consults at Mater Private Hospital, Greenslopes Private Hospital and visits Gladstone.

Dr Arumugam joined HeartCare Partners in 2013 and practices at Mater Private Hospital, Brisbane, The Wesley Hospital while also visiting Hervey Bay regularly.

Dr Butler works from Mater Private Clinic, Brisbane and also consults at Greenslopes Private Hospital and Hervey Bay.

Dr Camuglia is an interventional and general cardiologist who joined HeartCare Partners in 2014 after returning from Canada where he completed a fellowship in interventional cardiology at London Health Sciences Centre, University of Western Ontario, Canada. He performs coronary procedures predominately by the radial artery approach and is experienced in acute and elective coronary interventions. He also has experience in structural heart disease interventions including percutaneous management of aortic valve disease.

Prior to his interventional training Dr Camuglia graduated medical school with first class honours from Monash University, Melbourne and subsequently underwent post-graduate internal medicine training at The Alfred Hospital, Melbourne and then advanced cardiology training at the Royal Brisbane and Women’s Hospital, Brisbane and The Prince Charles Hospital, Brisbane. Dr Camuglia has published several articles in peer-reviewed journals and has also presented research findings at national and international cardiac meetings.

Dr Camuglia consults primarily at Mater Private Hospital, Brisbane but also visits both Goondiwindi (where he provides a consulting and echocardiography service) and Mater Private Hospital, Rockhampton where he provides a consulting service. Dr Camuglia is a visiting specialist at Princess Alexandra Hospital where he is a part of the acute angioplasty service for the emergency treatment of heart attacks and is a Senior Lecturer in Medicine with the University of Queensland. He cares for inpatients at both the Mater and Princess Alexandra Hospitals in Brisbane and performs cardiac procedures at both institutions.

Dr Camuglia grew up in Brisbane, Queensland and now lives in Brisbane with his wife and two children.

Dr Arumugam completed an Honours degree in Neuroscience (majoring in Anatomy and Exercise Physiology) at Monash University, Melbourne before moving to Brisbane and completing medical training at the University of Queensland. He trained in cardiology at The Prince Charles, Royal Brisbane and Women’s and Gold Coast Hospitals. He pursued subspecialty training in cardiac electrophysiology, predominantly device implantation (pacemakers and implantable defibrillators) and cardiac catheter ablation at the Royal Brisbane and Women’s Hospital.

He then gained further experience including complex ablation (atrial fibrillation and ventricular tachycardia) over a two year fellowship at one of the largest ablation centres in North America at the Royal Jubilee Hospital, British Columbia, Canada. He has presented research at international conferences in Australia, North America and Europe, most recently published in The Lancet 2012. Dr Arumugam joined HeartCare Partners in 2013 and practices at Mater Private Hospital, Brisbane, The Wesley Hospital while also visiting Hervey Bay regularly.

Dr Butler is a clinical cardiologist who has special interests in cardiac imaging, valvular heart disease and obstetric cardiology. Dr Hall has been involved and continues to be involved in research related to cardiac imaging and heart failure. Dr Hall consults at Mater Private Hospital, Greenslopes Private Hospital and visits Gladstone.

Dr butter's clinical interests are wide and include management of heart failure, valvular heart disease, hypertrophic cardiomyopathy, peri-operative medicine and management of cardiac conditions during pregnancy.

Dr Arumugam has also presented research findings at national and international cardiac meetings. More recently, Dr Arumugam has worked as a consultant cardiologist in Perth, Western Australia, at Hollywood Private Hospital. He has presented at multiple professional meetings in Australia and the USA.

Dr Butler consults primarily at Mater Private Hospital, Brisbane but also visits both Goondiwindi (where he provides a consulting and echocardiography service) and Mater Private Hospital, Rockhampton where he provides a consulting service.
